

Solutions:

trakref Advisors[®]trakref Cloud Platform[®]

How does trakref[®] help organizations?

Platform highlights:

- » Provides the capability to manage properties, HVAC/R systems, technicians, and assets across your enterprise.
- » Delivers 360° of refrigerant compliance validation along with audit tools to ensure full verification of your records.
- » Service event workflow and labor tracking tools for on-site and 3rd party technicians.
- » Track purchases and disbursements of refrigerants, follows assets across their full lifecycle.

What are the benefits of using trakref[®]?

- » Best practices are built in to the platform logic and workflow, leaving less room for error.
- » Provides tools around which all parties can collaborate through, improving communication.
- » Promotes system uptime by exposing critical systems data, maximizing occupant comfort.
- » 100% compliance guarantee and one-click reporting, mitigating regulatory reporting risks.
- » Profiles equipment for important system benchmarks, giving you actionable asset insights.

Is trakref[®] difficult to implement?

- » Trakref[®] is cloud-based, so there is no software to install, and updates automatically.
- » Trakref[®] is a field tested mobile app, and is easy to use for on-site or 3rd party technicians.
- » The trakref[®] platform is easy to understand and requires minimal training to master.
- » Trakref[®] is affordable, keeping cost concerns down while driving value through outcomes.

Case Study: When it was discovered that their current vendor's platform was not adhering to compliance and workflow best practices, a California supermarket with over 1,000 locations reached out to find a solution. With less than 30 days left to submit their R3 compliance report trakref[®] was the only company able to on-board and load all available data, identify and correct missing and incomplete records, and validate their report to meet their compliance deadlines.
